Re: *United States v. Michael Richard Lynch*
Case No. CR 18-577-CRB

First Production of Discovery

Dear Counsel:

Enclosed is the United States' First Production of Discovery in this matter. The production includes approximately 1.5 terrabytes of data. The discovery is produced on an Addonics drive (Addonics – T69093 (key) / KJST-DMR3BCS).

Among other materials, this production may include or reference (a) witness statements governed by 18 U.S.C. § 3500, including, but not limited to, grand jury testimony governed by Fed. R. Crim. P. 6(e), SEC investigative testimony, and other sworn witness statements, and (b) other witness statements, including, but not limited to, FBI Form 302 reports of witness interviews (with attached exhibits) and other third party reports of witness interviews, obtained or created by the government. The government designates these as "Protected Materials" within the meaning of the Stipulation and Order dated January 23, 2020, in this case. We respectfully request you treat them as such until we have a chance to confer further.

Attached to this letter is an index, prepared by government support staff, describing the discovery provided today. By producing a discovery index in this case, the government does not concede that such an index is required to be produced by any law, case, or rule; does not warrant the completeness or accuracy of the index; and specifically advises the defendant that the index is subject to change and correction through the time of final judgment without requiring the government to notify the defendant of each change or correction.

We are in the process of copying additional discovery to additional media for production. Attached to this letter is a second index, also prepared by government support staff, describing the additional discovery for production (and listing categories of notes that are available for your review at the U.S. Attorney's Office at a mutually convenient time). By producing this additional index, the government does not concede that such an index is required to be produced by any law, case, or rule; does not warrant the completeness or accuracy of the index; and specifically advises the defendant that the index is subject to change and correction. We will produce the additional discovery as soon as possible. If there are items on the additional index you would like us to prioritize, please let me know.

With regard to the discovery itself, the government will make available for your inspection any item of evidence referred to in the enclosed, as well as any other evidence seized from your client and/or which the government intends to offer in its case-in-chief. Please contact me to arrange a mutually convenient time for your inspection of such items.

The enclosed materials and any future discovery provided to you which may exceed the scope of discovery mandated by the Federal Rules of Criminal Procedure, federal statute, or relevant case law is provided voluntarily and solely as a matter of discretion. By producing such materials to you, the government does not waive its right to object to discovery requests beyond the ambit of its legal obligations. The government rejects any suggestion that the criminal local rules, including Criminal Local Rule 16-1(c), serve as valid authority for any substantive discovery obligations beyond that required under the applicable federal statutes and rules. *See, e.g.,* 18 U.S.C. § 3500 and Federal Rule of Criminal Procedure 16.

Notice Regarding Federal Rules of Evidence 404(b), 608, and 609

The government hereby gives notice that it may seek to introduce the other crimes, wrongs, or acts committed by the defendant which are referenced in the enclosed documents pursuant to Rules 404(b), 608, and/or 609 of the Federal Rules of Evidence.

Request for Reciprocal Discovery

With this letter the government requests all reciprocal discovery to which it is entitled under Federal Rules of Criminal Procedure 16(b) and (c) and 26.2, including, but not limited to, the following:

1. Inspection and/or copies of all books, papers, documents, photographs, tangible objects, or portions thereof in the possession, custody, or control of the defendant and which the defendant intends to introduce as evidence in his case-in-chief at trial.
2. Inspection and/or copies of the results of any reports of physical or mental examinations and of scientific tests or experiments made in connection with the above-entitled case within the possession or control of the defendant which the defendant intends to introduce as evidence in his

case-in-chief at trial or which have been prepared by a witness whom the defendant intends to call at trial.

3. Inspection and/or copies of all statements made by all witnesses whom the defendant intends to call at trial.
4. A written disclosure for any testimony that the defendant intends to use under Rules 702, 703, or 705 of the Federal Rules of Evidence as evidence at trial, approved and signed by the witness, which includes a complete statement of all opinions that the defendant will elicit from the witness in his case-in-chief, the bases and reasons for such opinions, the witness's qualifications, including a list of all publications authored in the previous ten years, and a list of all other cases in which, during the past four years, the witness has testified as an expert at trial or by deposition

Request for Notice of Defenses

The government also requests under Federal Rules of Criminal Procedure 12.1, 12.2, and 12.3 notice of any intention of your client to rely on an alibi defense, a defense involving mental condition or duress, and/or a public authority defense, as well as any intention to offer an entrapment defense.

Plea Negotiations

I do not have the authority to make any binding plea offer in this matter. If you wish to discuss a disposition of this matter, please be advised that all discussions are about a tentative disposition only and will not be final unless and until the final disposition is approved by the United States Attorney or an appropriate designee. Please do not assume that I have received such approval based on discussions between us or the exchange of draft plea agreements. I will advise you in writing if and when our plea negotiations have resulted in a plea agreement approved by the United States Attorney or an appropriate designee.

Please do not hesitate to contact me if you have any questions.

Very truly yours,
